Prev Button Problem

Posted by rudi - 2016/02/12 19:43

_____

Hi,
I have the problem with my Prev button that it doesn't work if I progress naturally trough my quiz. If I use the "skip" button, then the "prev" button works, too. But only in this case. Anyone encountered this problem?

thanks

_____

Hello,

If "Save" button is pressed on a page, it is not possible to return to this page later.

Regards,
ARI Soft
