## Social Media Sharing

Posted by ppetree - 2016/03/03 17:16

---

The marketing stuff says you can share results on social media.

I've been through the demo, played around in the backend and I don't see a way to allow for social media sharing, how to disable it, how to set the image and text that gets shared. Nothing.

How do you manage the social media sharing? :S

Hello,

Use "Share results" button at the end of a quiz:

<http://www.ari-soft.com/images/fbfiles/images/share-00c0a7359a16ed436acc635d0008c9b3.jpg>

For example complete this quiz to see the button.

Hi,

How can I disable the button social sharing.

Thanks

Hello,

Set "Results settings -> Share results" parameter to "No" on quiz settings page.

Hello,

I wonder if you can use the social sharing button as follows. I have several categories of exercises, when the last exercise is performed the student will be diverted to a questionnaire in which will give a note to the course. Depending on the note that he makes in the course will be enabled social sharing button for it on your facebook information about our course. Is it possible to do that?

---

Thanks,

=====

---

The extension doesn't support this ability.

Hi,

I set up, but it did not work, still showing social sharing button when the page is displayed with the results for the year, see the attached file

Do you use the latest version of the extension (v. 3.9.0)?
