
Embed quizzes into articles in Joomla!

Posted by frankrjohansen@gmail.com - 2016/03/30 09:58

I'm trying to embed a quiz into an article in Joomla! Ari Quiz anywhere plugin seems to be correctly installed. I've pasted the codeline with correct quizID, and I still can't make it work. I'm using full version of Ari Quiz. What am I doing wrong? Any suggestions?

Hello,

Could you specify what plugin code you use and provide a link to a page where you try to use the plugin?

This is a page where I am trying to use the plugin code - it appears on the page when I publish the article.

Could you provide a temporary access to your J! backend by email?
