
How to modify default values ?

Posted by E.G - 2016/05/13 14:02

Hello,

I would like to modify the default value of "Anonymous access" when an administrator creates a quiz.

Now it's on "Ye"s, but I would like the default value be "No".

How can I do that ?

Thanks for your help,

E.G

Hello,

Open /administrator/components/com_ariquiz/models/forms/quiz/quiz.xml file and replace the following code:

```
COM_ARIQUIZ_LABEL_YES  
COM_ARIQUIZ_LABEL_NO  
COM_ARIQUIZ_LABEL_BYUSERWISH
```

with the following one:

```
COM_ARIQUIZ_LABEL_YES  
COM_ARIQUIZ_LABEL_NO  
COM_ARIQUIZ_LABEL_BYUSERWISH
```

Regards,
ARI Soft

Unfortunately that I did and it's always on Yes.

The only way to have "No" by default is only if I remove the "COM_ARIQUIZ_LABEL_YES".

Is there another file where default values are defined ?

I have the same problem for each default value in quiz.xml.

Sorry, change it also in /administrator/components/com_ariquiz/tables/quiz.php file. Change value of "Anonymous" variable from "Yes" to "No".

Hello,

How can I do if I want "Passed Score" be by default "80" and no "0" ?

Thanks for your help,

EG

Hello,

Open /administrator/components/com_ariquiz/tables/quiz.php file and change value of "PassedScore" variable from 0 to 80.

Thank you very much.

One more question : where can I reorder the different types of questions as on the screenshot attached ?

Thanks again,

Currently the extension doesn't provide ability to change this order on UI, but this can be changed in

#__ariquizquestiontype DB table. Use "TypeOrder" field for this purpose.

Ok, thanks, I will check that.

And if I want to modify the number of exercises displayed ? By default it's on ten :

For example if you want to change value of "Display#" parameter on "ARI Quiz -> Quizzes" page on component backend, open /administrator/components/com_ariquiz/controllers/quizzes.php file, find "_getFilter" method and replace the following code:

'limit' => 10,

with the following one:

'limit' => 30,
