## Can Register user create quiz

Posted by praveenk@mentorware.com - 2016/06/10 06:44

Hi,

Can Register user create quiz from front end application using ARI Quiz ??

Thanks in advance.

Hello,

Thank you for your interest in the extension. Currently it doesn't support ability to create quizzes on frontend. It is possible to grant permissions for selected user groups to create/delete/edit quizzes on backend.

Regards, ARI Soft

i mean user can create quiz from backend with special permision.

i try with special permision,

he can access single component (Ariquiz) but he also can edit all quiz, template, mail, config too.

in permision setting im only alowed create quiz + category and question.

and another fungtion i set not alowed but not affected in joomla backend, user still can edit, event it Ari Quiz Config.

"Enable ACL" parameter was set to "No" in "ARI Quiz" config.
