
Questions - edit not working - The entity can not

Posted by admin@mattelo.co.za - 2016/08/04 11:45

Ive uploaded csv questions and it works great but if you want to edit a question, you cannot save the edited question. Only get The Entity can not be saved.

Please assist.

Hello,

If you use a 3rd party WYSIWYG editor, try to switch it to a standard Joomla! editor on "ARI Quiz -> Config" page (see "Editor" parameter). If it doesn't help, could you provide a temporary access to your J! backend by email so we can investigate the problem?

Regards,
ARI Soft

Thanks for your quick response.

I changed my super admin permissions under rules: Allowed all of them. It was Inherited. Now it works. I can edit or add new questions.

Its a great component.
