
from alpha user points to alta user points

Posted by richard2004 - 2016/09/22 09:19

Alpha user points doesn't exist anymore. There is a new version with the name: Alta User Points. When you update Alpha User Points to Alta User Points and you totally delete Alpha User Points, your plugin from Ariquiz doesn't work anymore.

Here is how you can fix it:

go to: plugins/system/ariquizalphauserpoints

open: ariquizalphauserpoints.php

go to: line 70

change: AlphaUserPointsHelper to AltaUserPointsHelper

go to: line 86

change: components/com_alphauserpoints/helper.php to components/com_altauserpoints/helper.php

=====

Hello,

We have added plugin for integration with AltaUserPoints extension. It is available here on "Files" tab.

Regards,

ARI Soft
