
Remove Choice 1 Choice 2 with True/False

Posted by olderthanwiser - 2016/09/24 16:33

I upgraded from Lite to full version. My True/False question type has now got an added prefix called Choice 1/Choice 2.

How do I remove the Choice Text and only use True False? <http://www.ari-soft.com/images/fbfiles/images/true.jpg>

Hello,

Add the following CSS rules to a site template CSS file and clean browser's cache:

BODY #ariQuizContainer .aq-answer-label {width:auto;}

BODY #ariQuizContainer .aq-answer-container .aq-answer-label LABEL {display:none;}
