## Empty Question / Informational Page in Quiz - How?

Posted by rhindmarsh - 2016/10/26 14:30

---

Hi folks,

just bought ARI Quiz. Very nice extension!!!

How can I set up an "empty question" within a quiz, where no answer is required? I would like to provide some information to the user at the end of the quiz before he proceeds to the end.

Thanks in advance!

Hello,

Sorry for the delay. It is possible to use "Essay" question type.

Regards,

Yes, but...

is it possible to hide the field, where the essay is to be written?

The quiz requires an answer there, so I have to write at least one letter into the field. What I am looking for is a way to just display an explanation after the user has answered a question with no interaction except for moving on to the next question.

The extension doesn't support this ability, it can show explanation which is defined in "Explanation" parameter in question settings after user answer.
