
quizzes not accessible anymore

Posted by Marsm - 2016/11/01 11:41

Hi,

I have a strange problem, probably after updating to Joomla 3.6.4, when I want to take a quiz.

When I click on a link to a quiz I am redirected to the login page, I have to login again.

When I use a tablet I can't access a quiz at all, I have to login everytime. When I use a PC it depends on the browser I choose if the quiz is accessible or not.

Hope you can help me?

Regards,
Marsm

Hello,

Could you provide a link to a page where the problem occurs and a temporary access to your J! backend by email so we can investigate the problem?

Hello,

I disabled the AceSearch module and the problems are gone, so this was the problem indeed. I leave this module disabled.

Thanks for the quick and good service!

Regards,
Marsm
