
video in question ?

Posted by moquereau - 2016/11/10 14:18

I have the component "spider video player" on my website, it works on all article but not with ari Quiz ! Have you an idea ? Is it possible to put a video in a question ?
Thanks in advance.

Hello,

AllVideos plugin can be used to embed videos into questions.

Regards,
ARI Soft

Rokbox worked with the rockettheme template when I tested youtube videos.

Hi ari Team and disoft,

My site is not on web so i'm not interesting by youtube video.
My videos are on my server.
I try 2 components, all work well when I put video in article.
But when I put the code in a question I have the code on the page and not the video !
Is it possible to forget something ? <http://www.ari-soft.com/images/fbfiles/images/quizari.PNG>

Hello,

Open quiz settings page and enable "Additional settings -> Parse plugin tags" parameter.

Regards,
ARI Soft
