Quiz Table Storage Engine

Posted by blues - 2016/12/02 09:06

_____

Hi Team,

All the quiz tables used MYISAM Storage Engine, Is there problem to transfer it to InnoDB through Phpmyadmin directly? InnoDB has better performance.

Thanks

Hello,

It will work fine with InnoDB engine.

_____

Thanks for quickly response.

When I change the storage engine to InnoDB, next time I upgrade Quiz version, it will keep InnoDB?

BTW, for 3.9.4, what's updated based on 3.9.3
