
Problem with links to previous quiz

Posted by militosconsulting - 2016/12/12 09:13

Hi,

when the user has not completed a quiz and tries to access the next, he gets the following message :

You don't have access to the quiz because haven't completed successfully the previous quiz.

The problem is that the link does not take you to the previous quiz but in the same and getting the same message.

Every quiz has a joomla menu item.

The only way to make this work is to turn of SEF in site and Ari-quiz config.

Is there any way to solve this with SEF enabled ?

Thank you.

=====

Hello,

Do you use standard Joomla! SEF? Could you provide a link to a page where the problem occurs and a temporary access to your J! backend by email so we can investigate the problem?

Regards,
ARI Soft

It works fine now.
Thank you very much.

Can please let me know what I had done wrong or what was the change ?
Because I will use your extension in future websites.

Thank you

I am sorry but I see no diffs in the file.

Can you be more specific ?
I need it because I have the same problem when I create a menu item "ARI Quiz » Quiz category"
I get the list of the quizzes but are not associated with the menu items "ARI Quiz » Quiz" I have created for every quiz.

Re:Problem with links to previous quiz

See the following code in the file:

```
$errorMessage = JText::sprintf('COM_ARIQUIZ_ACCESSERROR_PREVQUIZ2',  
JRoute::_('index.php?option=com_ariquiz&view=quiz&quizId=' . $quiz->PrevQuizId . ($tmpl ? '&tmpl=' . $tmpl : '')) .  
'&Itemid=' . AriMenuHelper::getActiveItemid()));
```

it was replaced with:

```
$errorMessage = JText::sprintf('COM_ARIQUIZ_ACCESSERROR_PREVQUIZ2',  
JRoute::_('index.php?option=com_ariquiz&view=quiz&quizId=' . $quiz->PrevQuizId . ($tmpl ? '&tmpl=' . $tmpl : '')) .  
'&Itemid=0'));
```

Regards,
ARI Soft
