
Need to upgrade ARI Quiz from 3.9.0 to 3.9.5

Posted by thanh2206 - 2017/01/10 08:12

Hello,

I am running ARI Quiz 3.9.0 system and I want to upgrade to the latest version 3.9.5.
I've got the 3.9.5 package.

Could you please telling me which files need to be replaced for my 3.9.0 system?
Does ARI Quiz 3.9.5 work well with my Joomla 3.5.1 (stable)?

Thanks,
Thanh

Hello,

Install new version of the extension via standard Joomla! installation page and the installer updates all necessary files.

Regards,
ARI Soft
