Quiz Image CDN not working Posted by blues - 2017/01/12 04:25
Hi team,
I use CDN for whole website images, css and js file, only those images in quiz cannot be loaded through CDN, and also cannot find these images link in web html source code.
Is there any difference for images in quiz?
thanks

Hello,
Could you provide a link to a quiz where the problem occurs? The extension loads questions via AJAX.
