
Changelog for ARI Quiz?

Posted by BurlingtonGreen - 2017/01/30 15:00

Where is the change log located for ARI Quiz? I wanted to see the changes between 3.9.4 and 3.9.5.

Also any idea yet when 4.0 will be released with the expanded reports that include the questions and answers?

Thanks for your hard work.

Hello,

v. 3.9.5 contains fix for "Multiple Dropdown Question" question type when "0" is used as an answer.

Currently we don't have an exact date when 4.0 will be released. Sorry.

Regards,
ARI Soft
