Quiz Categories in Frontend

Posted by wilmon - 2017/01/30 18:19

_____

Hello.
I want to know how to display the Quiz Categories in Frontend.
When the user clicks on the Quiz Categories name it is directed to the subcategories or list of quizzes.

_____

Hello,

The extension can show quizzes from the selected category and all sub-categories in tree view. For this create menu item with type "ARI Quiz -> Quizzes" and select a category in "Parent" category parameter.

Regards,
ARI Soft
