Button by directing to another page results

_____

How to show a custom button by directing to another page on the Quizz results page (next to the print button, button send result by email, button try again button)?

This button should appear on all quizzes.

Thank you;

Wilson Monteiro.

Re:button by directing to a particular page results

_____

Hello,

If you want to add a custom button on quiz results page, modify quiz results template. Edit /components/com_ariquiz/views/quizcomplete/tmpl/default.php template file.

Regards,
ARI Soft
