## explanation Table class change

Posted by Hetitec - 2017/02/05 14:08

---

Dear Ari Team,

I hope you can help me.

Im looking for the file, where i can change the tables for the class adminlist ariQuizStatSQ (The Explanation Table getting after the select answer)- i want to change the classe table, th, tr to div an span.

Is it in a php or a JS script?

Hello,

This HTML code is generated in javascript file. It is /components/com\_ariquiz/assets/js/ari.quiz.js file. See "renderSingleQuestion" method in YAHOO.ARIsoft.Quiz.statistics object.

PS: We sent un-minified version of the file by email.

Regards,  
ARI Soft
