How do I view a certificate pdf to test?

Posted by xmanflash - 2017/02/23 09:17
_____

Hi there,

I am creating a certificate in the template, and wish to be able to email it to myself, (or view it as a file) without doing an exam..

Is this possible ?

I also wish to make available each Certificate as a link in each users profile page for them to download when they wish to.. How would I achieve this?

Thanks,
Pete

Hello,

1. Sorry, but the extension doesn't support this ability.

2. Link to certificates are available only on quiz results page. It is possible to create a page where will be shown all passed quizzes for registered users.

Regards,
ARI Soft
