
Set timer to the quiz's End date

Posted by edwinfo - 2017/03/03 03:33

Hello,

I want the quiz auto modify the "Total time" to "End date" time in case of a user take a quiz late and the "Total time" goes after the "End date". i.e. Get less time if start late.

It is this possible?

Hello,

Could you provide a sample with real dates/time?

Example:

Main settings:

ID: 1
Name: QuizOne

.
. .
.

Total time: 7200 s = 2H

Access and Security:

Anonymous access: no

.
. .
.

Start date: 3/3/2017 10:00 am

End date: 3/3/2017 12:00 m

If someone start the QuizOne at 3/3/2017 - 11:30 am. Now it is possible and he is going to have two full hours to finish. My point is that I want the QuizOne just between, "Start date" and "End date", if some one, like before came at at 3/3/2017 - 11:30 am, i.e, late for my case, the system should give him just 30 min.

I hope this example is OK.
