Hi Ari Soft,

I need to hide or remove the table only that is surrounded by red box (see image attached). But I still need to show the explanation. Can you let me know how I can do it.

Can you also send the un-minified version of ari-quiz.js

Thanks,

Hello,

Add the following CSS rule to site template CSS file:

#dtResults .aq-question-explanation>TABLE {display:none}

PS: We will send original version of javascript files by email within a couple of minutes.

Regards,
ARI Soft

I got that working on the summary of the quiz. How about the individual question, I still have the table per individual question. I want the table also be hidden or removed per question.

Can you send also the css changes.

Thanks again,

ED

Use the following CSS rule:

.aq-question-correct-answer>TABLE,
.aq-question-explanation>TABLE {display:none}
