
Remove Choice 1 Choice 2 with single question

Posted by olguney - 2017/03/24 13:24

I want the "Question #" and the "Choice #" labels to be removed in the tests and I want the questions and answers to be justified. How to make a change in which css file.

link : <http://www.muktesebat.com/index.php/sinavlar/konulara-gore-sinav/32-178SayiliKHK/Question-32-dd903ef4bfc77ea30858626cacaf614a>

Can we also show the ID of the questions added to the Question Bank at the beginning of the question?

Could I have the following requests in Version 4.0?

- For those background color, font, font size (etc.) of questions and answers, Can we make any changes?
- Can there be feedback for questions on the question bank? For example, when the user thinks there is an error in one of the questions and tells us about it, can we regulate this question on the back pane?

Hello,

It seems "Choice #" label is removed on your site. Add the following CSS rules to remove "Question #" label:

```
.aq-question .aq-question-title {display:none!important;}
.aq-question .aq-question-content {padding-left:0 !important;}
```

We will take into account your suggestions for new versions of the extension.

Can we also show the ID of the questions added to the Question Bank at the beginning of the question?

thanks in advance...

Currently the extension doesn't support this ability. It requires modification of the component.

Thanks for the explanations.

We are waiting for the new version :))
