
Russian Test Titles SEF

Posted by stepan39 - 2017/04/12 07:29

Just bought and installed version 3.9.5.

Unfortunately, the bug that was present in previous versions is not fixed.

When SEF is enabled, if the names of the tests are written in Cyrillic, they are cut from the URL.

Example:

Title in russian: >2K9 B5AB

Should be:

/ Quiz / 1-noviy-test

Now:

/ Quiz / 1-

How to fix this problem?

Another problem related to navigation.

The settings for the breadcrumbs module are set to SHOW LAST.

This does not work for ARI Quiz.

Breadcrumbs should be displayed like this:

Home / Quiz category / CURRENT QUIZ NAME

Now CURRENT QUIZ NAME is not displayed

Check your mail please. We sent the updated router. It should transliterate Russian links correctly.

Thanks! This works perfectly. The problem is solved. I propose to include a new router in the current release.
