E-mail variable in the template does not work

Posted by stepan39 - 2017/05/26 09:17
_____

Hi!

I noticed that the {$Email} variable does not work in the template to send an email to the administrator. How can this problem be solved?

Thanks.

Hello,

We can't reproduce the problem. Do you use {$Email} predefined variable in template body or in another field?

Regards,
ARI Soft
