Hi,

Using the latest version of ARI Quiz and the Community Builder Results plugging. Getting the following error:

Deprecated: Methods with the same name as their class will not be constructors in a future version of PHP; getAriQuizResultsTab has a deprecated constructor in /public\_html/components/com\_comprofiler/plugin/user/plug\_ariquizresults/cb.ariquizresultstab.php on line 133

any chance the plugin will be updated?

Thanks
