show results in backend for restricted admin user

Posted by ensöianer - 2017/07/21 09:29

_____

Hi,

we have the requirement, that an user needs to display some quiz results of other users. I created a special user group but I`m not able to give this access to ari quiz in the backend.

What can I do to realize this project?

kind regards
ensöianer

_____

Hello,

Currently the extension doesn't support ability to set permissions to enable/disable access to results page on backend.

Regards,
ARI Soft
