
ARI Quiz Changelogs

Posted by stepan39 - 2017/07/21 13:31

Hello!

I have installed "ARI Quiz" v. 3.9.8 with many custom changes. Current v. 3.9.11

I can only update manually, because I have a lot of custom code....

Tell me what changes were made from version to version, starting with 3.9.8. And is it worth it to update the component?

Thanks.

Hello,

It contains the changes which are described here.

Regards,
ARI Soft
