
ariquiz anywhere plugin doesn't fit wel in tabs

Posted by richard2004 - 2017/10/03 10:16

I use ariquiz anywhere plugin and I use Regular Labs Tabs.

Problem: the quiz doesn't open in de window (tab). You have to scroll down to the start button, although there is enough space in the tab.

a kind of solution: refresh the page (F5)

Hello,

This problem occurs because tab content area is hidden and the plugin can get height of tab content area.
