
[Solved] Number \"0\" (zero) is not \"accepted\"

Malfunctioning in ARI Quiz v. 3.9.11 (joomla 3.8.1)

Hello,
I have a problem in Ari Quiz 3.9.1: in questions of type "Multiple Free Text Question", if in reply I write the digit "0" (see screenshot-1.png) and save, the number "disappears" (not saved) and the white space remains (see screenshot-2.png).
Why?
What can I do?

Thank you

Hello,

Download and upgrade the component to v. 3.9.12. It should help.

Regards,
