
Order of Categories

Posted by enginbasturk61 - 2017/10/22 08:33

Hi!

I have four categories in a quiz. These for question categories are different at levels. I mean some are having easy questions and some are having difficult

when a quiz has setting as "Paging" Separate by Categories I want to be able to order them by myself.

The easy one should come first

Can you do something for this? are they coming randomly or there is a default setting

=====

Hello,

Currently the extension doesn't support ability to set question categories ordering.

Regards,
ARI Soft
