How to use background image to each quiz?

Posted by magesh - 2010/08/11 06:24

_____

Hi,

We are going to create separate template for ARI Quiz component. When creating new "quizzes" how hard would it be to add an image upload for a background image to customize each quiz based on the questions being asked?

Thanks,
Magesh M

_____

Hello,

A quiz can be linked with specific 'CSS Template' (CSS file) and it can help to use different background images for different quizzes.

Regards,
ARI Soft

Hi,

Thanks for reply, Even I thought same thing that what you replied.

Thanks
Magesh
