Transfer Quiz Results

Posted by selimozbay - 2018/03/20 08:42

_____

Hi there,
I love ur component ARIQuiz it is one of the main component of my web side ;)
I am rebuilding my webside now but i have about 400 quiz results...
I wanna import them to my new web side.
Could u help me about this?
Is there any way to import quiz results?
Thanks!

_____

Hello,

The extension doesn't support ability to copy quiz results from one site to another. If you want to copy all quizzes data (quizzes, questions, results and etc.), copy all DB tables with prefix #__ariquiz from old site to a new one and then install the component on new site.

Regards,
ARI Soft
