
Connection error to the server

Posted by warlock - 2018/03/30 13:19

Good afternoon,

Error Joomla 3.8.6 + PHP7.0/7.1 + Ari Quiz 3.8.4 - the tests do not start, it gives a connection error to the server ?

Hello,

Download the latest version of the component in "Member Area" on our site and update it on your site. If it doesn't help, provide a link to a page where the problem occurs so we can investigate the problem.

Regards,
ARI Soft
