## Quizzes results in frontend

Posted by danp - 2018/04/10 15:15

---

Hello,  
two questions:  
1) in addition to the ability to show quizzes results which were currently logged on users, is it possible to show in the frontend the list of the results of all the quizzes of all users (superuser access)?  
2) is there a feature of creating pdf and / or massive print of the results of the quiz, from frontend or backend?  
Thank you  
Daniele

Hello,

1. The extension show all results for administrators only on backend.
2. The extension doesn't support this ability.

It is possible, in the backend, to print or create the pdf of each result ? (excluding the functionality present in the browser)

The plugin doesn't support this kind of functionality.
