Good day, there is a site joomla 3.8 which runs 590 tests ARI Quiz 1.2.7, I want to update to the latest version of ARI Quiz with the preservation of all tests. Tell me, when buying a license, is it possible?

Hello,

If we correctly understand, you want to upgrade "ARI Quiz Lite" to "ARI Quiz". It is enough to delete "ARI Quiz Lite" and then install "ARI Quiz". All quizzes will be available after the upgrade.

PS: We recommend to create database backup before the update.

I understand, at first it is necessary to remove "ARI Quiz Lite", then delete 4 modules:

ARI Quiz Results 1.2.0

ARI Quiz Top Results 1.2.0

ARI Quiz User Results 1.2.0

ARI Quiz User Top Results 1.2.0

After that, install ARI Quiz 3.8.4 and all the quizzes will be available after the update?
