Timer

Posted by amustin - 2010/08/18 18:15

_____

I am using the quizzes component to run contests and the winner is determine by answers correct and then the time it takes to complete. We anticipate many contestants and feel the time will be the determining factor. Do you have a timer that starts at 0 and counts by 1000s of 1 second?

_____

Hello,

ARI Quiz can show timer from time limit for a question or a quiz to 0 with step in 1 second.

Regards,
ARI Soft
