
Happy new year

Posted by AlexK - 2019/01/06 11:21

Hello together
sorry for my bad english but I try my best.
I buy the developer version of ARI Quiz WP.

1. Is it possible to have the options under the Quesstions on site not like this:

Option 1
Option 2
Option 3

and I like to have like:

option 1 option 2 option 3

2. How I get the result side without the questions. Only the results on one page?

3. Where I can active the quiz-progress-bar in top?

4. Where I can chance the color for the quiz-progress-bar in green?

I hope someone can help me - thank you very much :)

Alex

I dont know how much more work it is.
When its to much - maybe someone can make me an offer for this chances?

Thank you

Hello,

1. Do you use image based answers or text answers?
2. Open "ARI Stream Quiz -> Settings -> General" page and disable "Show questions at the end" parameter.
3. See "Progress bar position" parameter on "ARI Stream Quiz -> Settings -> General" page.
4. Open "ARI Stream Quiz -> Settings -> Advanced" page and populate "Custom CSS Styles" parameter with the following code to change progress bar background from green to red:

```
.asq-theme .quiz-progress-bar:after {  
    background-color: red !important;  
}
```

Regards,
ARI Soft

Thank you very much :woohoo:

1. I used both. I have a small pic and one word and I like to have 3 answers in a line not 2. How can I make it?

Thank you

When a question contains an image answer, it is possible to specify how many answers should be shown per line using "Image answers per row" parameter on "ARI Stream Quiz -> Settings -> General" page.

"col" attribute can be used in shortcode:
