Hello,

Add the following CSS rule to a site template CSS file for "Single Question" question type:

```

  display: flex;  
  flex-direction: row  
}
```

Try the following CSS rule:

```
.aq-cat-quizzes .aq-quizzes {  
  display: flex;  
  flex-direction: row;  
}  
  
.aq-cat-quizzes .aq-quizzes LI {  
  flex-basis: 25%;  
}
```

Try to clean browser's cache. If it doesn't help, could you provide link to the page so we can investigate the problem?
