what\'s for ARI Quiz events handler (plugin)?

Posted by masky007 - 2010/08/22 19:22
_____

The Subject name tells everything..
However where i can find more info on what dose the other plugins dose exactly?
thanks

Hello,

'ARI Quiz Events' plugin can be used as base plugin if you want to integrate 'ARI Quiz' with other extensions. It provides ability to call necessary PHP code for different quizzes events (start quiz, end quiz and other). This plugin is interested for developers. All supported events and parameters can be found in ariquizevents.php file.

Regards,
ARI Soft
