Score is showing 0
Posted by conduiraonline - 2019/08/01 06:00

_____

Hello Team,

Although I am assigning score at question level, but after taking the test and answering most of the questions correct, still the score is being shown as zero. Please help me with this. http://www.ari-soft.com/images/fbfiles/images/Issue_1.PNG

Found what the problem is - We aren't getting 'Save' button on the test screen. How to add the Save button to the question?

_____

Hello,

"Save" button is always shown during quiz session. It doesn't require any additional configuration.

If you change score in question settings, it will be applied to new quiz sessions. All previous quiz results remain untouched.

Regards,
ARI Soft

_____

Save button is not showing by default.

_____

Could you provide a link to a quiz where it is not showing? Quizzes will not work without this button so it is not possible to remove it.

Regards,
ARI Soft

_____

Here is the link.
https://bj.conduiraonline.com/index.php/quizzes/594-SampleGKQuiz1
Please also note the remaining time is different for different questions.

_____

You use modified version of the extension. HTML code for save button was modified and the button is hidden. See the

following code in /components/com_ariquiz/views/question/tmpl/default.php template file:

  Submit Quiz

in original version it looks like:

Your version contains "hide" CSS class.

Regards,
ARI Soft
