template Ari Quiz
Posted by andrej - 2019/08/03 09:24

_____

Hello.
I would like to change the default colors of the Ari Quiz template from white to gray and add a frame around the template.
Where can I make changes?

greetings
Andrzej

_____

Hello,

Could you provide a link to a sample quiz and provide a screenshot where we can see what you want to achieve? We will provide custom CSS rules which help to do necessary changes.

Regards,
ARI Soft

_____

Thank you for your response.
I'm writing again because I think I did not go early? ...
Quizzes are on the website: znaki.edu.pl. I am sending an example of the Quiz template, but I think that your idea to match the quiz to the page graphics will be better ... :)

Greetings.

_____

Add the following CSS rule to a site template CSS file and clean browser's cache:

```
.ari-quiz-container {
  border: 2px solid #000;
}

body #ariQuizContainer .aq-status-panel {
  background-color: #c9c9c9;
}

#ariQuizContainer .aq-button-panel .btn-primary {
  background: none #fcab3a;
  color: #7d7d7d;
}
```

Regards,
ARI Soft

_____

Thank you for your help, but I will still have a request - it is a bit too narrow on the page. Can you expand it?

https://znaki.edu.pl/index.php/8-ostrzegawcze/439-a-1i2

Regards.
Andrzej http://www.ari-soft.com/images/fbfiles/images/prz.jpg

_____

Hi.
This is what the quiz looks like when I open the page: https://znaki.edu.pl/index.php/8-ostrzegczych/439-a-1i2 in the Edge browser. Even it's cool, but too narrow. How to make the width 80%?

Regards
Andrzej

And one more thing. Qiuz looks different, but the title page is still the old way. Can this be changed?

Andrzej

_____

We can't reproduce the problem:

 http://www.ari-soft.com/images/fbfiles/images/qq-23d064b4458e965a79b9cc80145476ce.jpg

Could you provide an image where possible to see the problem with title page?

Regards,
ARI Soft

_____

Welcome back.
Can it be done like on the example? Or similarly?

greetings
Andrzej http://www.ari-soft.com/images/fbfiles/images/tak.jpg

_____

Add the following CSS rule to use 90% of available width:

DIV.aq-ic-wrapper {width:90%}

_____

Hello!

Unfortunately it does not work. What about the rest of the changes?

Regards.
Andrzej

_____

Welcome back.
I haven't said anything for a long time, but finally I've found what I want on my website.
Can you do that with AriQuiz?

Regards.
Andrzej http://www.ari-soft.com/images/fbfiles/images/obraz_quiz.jpg

_____

Hello,

It is possible, but this requires custom modification. Currently we don't offer a service for modification of the extension.
You can hire a developer for this purpose, we can provide information which files should be modified.

Regards,
ARI Soft
