## Page Reload on Clicking on Next and Back buttons

Posted by conduiraonline - 2019/08/05 12:59

---

Dear team,

we have observed that on clicking the question number(on the paging module), the question is changing on the page. But when we click on 'Next' or 'Back', the whole page is reloading. Can we stop the page reload and just the question changes?

Regards,

Hello,

Disable "ARI Quiz Reloader" plugin.

Regards,  
ARI Soft
