## Translation to Portuguese Brazil

Posted by luisones - 2008/12/11 22:59

---

Hello There,

Could you please send me or inform me where are the english language files and what do I need to do so I could tranlate the ARIQUIZ component to Brazilian Portuguese?

I'll send the translation back to you afterwards.

Regards,

Luis

You can change the language files using administrator interface:

Components -> ARI Quiz -> Languages and Components -> ARI Quiz -> Languages Frontend

Components -> ARI Quiz -> Languages and Components -> ARI Quiz -> Languages

There you should press "Add" icon to add new language, fill the messages with translated text and save. After you saved please set new language as default in languages list.

The language files themselves are are located:

joomla\_dir/administrator/components/com\_arquiz/cache/files/lbackend and

joomla\_dir/administrator/components/com\_arquiz/cache/files/lfrontend.

Regards,

ARI Soft
