## The Selected Quiz is not available

Posted by victoriammt - 2019/08/22 19:52

---

I have this message "The selected quiz is not available" on one of my quizzes when I try to use it. If I log out and use the site as a guest it works fine. I can see that other people, both guests and registered are using it. What's gone wrong?  
Many thanks

Hello,

Could you provide a link to a quiz where the problem occurs and a temporary access to your J! backend by email so we can investigate the problem?

Regards,  
ARI Soft
