
keep exercises (quizzes) in a new Mysql bank

Posted by Paulob - 2019/09/10 13:46

Hi,

We are modernizing our joomla environment and want to keep the ariquiz exercise settings in the new environment in a new MySQL database, which tables should I import into this new database or what steps should I perform?

Thank you

Paulo Barreto

Hello,

Copy all DB tables with #__ariquiz prefix.

Regards,
ARI Soft
