## Metadata Noindex No follow

Hello I'm using the ARI Quiz v. 3.9.8 version. Metadata in the menu item does not work when I make noindex no follow for robots. No metadata is added to the quiz page. What could be the reason for this?

Hello,

It can be a problem with a 3rd party extension. We can investigate the problem in more details if you provide a temporary access to your J! backend by email and a link to a page where the problem occurs.
