
math equation and math type

Posted by angelaus - 2010/08/26 10:38

i use math type program for making math equations. So 1m curious that if 1 use this equations on ari quiz. do 1 need to any other instal or programme or ari quiz has the enough ability to do it

thanks for ur time

Hello,

If your WYWIWYG editor supports math equations, you can use it in questions. You can also use images in questions.

Regards,
ARI Soft

You can install tinyMCE WIRIS plugin for tinyMCE editor. It provides integration tinyMCE editor with WIRIS service. You can see how it works here. Instructions how to install the plugin are located on plugin page.

there is another issue with this.

how can I write math formulas to answers . other than tag

=====

Re:math equation and math type

Posted by admin - 2010/08/30 08:33

The component doesn't provide another method for answers. We'll implement possibility to use WYSIWYG editors for answers in a future release.

hi

i have another problem i installed the tinymce editor and it was going right but now when i log in to Joomla database and open the tinymce editor i can't see the formula on the editor.
i check my java and also updated that.

thanks for ur time

Hello,

Sorry for delay. Ability to use WYSIWYG editor for entering answer text will available in "ARI Quiz" v. 3.0. We are working on it now and it will be ready within 3 weeks.

Regards,
ARI Soft
