In The Name Of GOD,  
Hello,

The AIR Quiz version that we use is from the date that airquizincontent plugin was produced for joomla 1.5.  
but that plugin produce a white page instead of the component page that the air quiz was inserted into it .

please is it possible to produce the airquizanywhere like airquizincontent plugin ?  
maybe the problem of white page will be removed .

thanks  
Saeed Ghofrani Jahromi
