_____

Hello,
I want to relocate the radio button. I also want to use the ")" symbol. How can I do it. Thank you.

_____

Hello,

Sorry for the delay. Add the following CSS rules to a site template CSS file:

```
.aq-singlequestion .aq-answer-label label::after {
   content: ")";
   display: inline-block;
}
.aq-answer-label {
   display: flex;
   flex-direction: row-reverse;
   align-items: center;
}
.aq-answer-label label {
   margin-bottom: 0 !important;
   padding-left: 5px;
}
```

Regards,
ARI Soft

_____

Thanks....
Can you write the full path to the css file?

_____

Any CSS file from your site template.

Open "Extensions -> Templates -> Templates" page on Joomla! backend, choose your template and then edit a CSS file.

Regards,

ARI Soft
